Grind Smarter

# MIGNON SPECIALITÀ

## SMART

### Grind Smarter

- 1 Burrs Distance Detection System** PATENT PENDING  
with distance visible onscreen, to fully comprehend the exact grind size and be always able to find the real zero as well as the desired setting for your recipe.
- 2 Smart Technology** PATENT PENDING  
to guide user in reaching the perfect grind size for the recipe.
- 3 New 2.8', multi-colour, responsive, high-resolution touch display with advanced features:**
  - Digital Easy Setting to be always aware of the grind range (Turkish, espresso, moka, drip, French-press)
  - Recipe book to save your favorite recipes
  - 2 programmable doses, with the option to activate the 3<sup>rd</sup> one or the “Extra dose” mode.
  - Single dose mode
- 4 55mm flat burrs, Espresso & Brew design** | high precision burrs with high grind capacity (1,8-2,5 g/s Espresso | 2,5-3,2 g/s Brew), developed to achieve excellent espresso as well as good results in filter coffee.
- 5 New heavy-duty metal fork** | for greater stability and handsfree operations for any portafilter. Adjustable without any extra tools!
- 6 New hopper,** | equipped with metal tab and fine finishes.
- 7 Silent Technology**

*Recommended grinding modes*

SUGGESTED USE:  
/ Turkish / Espresso / Mokka / Drip /  
French Press

## Burrs Distance Detection System

with **real-time digital display**, allowing **precise visualization of the burrs' gap**. This feature enable users to **accurately identify the true zero point** and fine-tune the optimal grind setting and brewing recipe, ensuring **unmatched repeatability and control**.

## SMART Technology

An advanced guiding technology designed to **assist users** in precisely adjusting the grind size to **match the optimal parameters** of each brewing recipe, **ensuring accuracy, consistency,** and **superior cup quality.**

# TECHNICAL DETAILS

## BURRS

|          |                               |
|----------|-------------------------------|
| Type     | Flat (Espresso & Brew design) |
| Diameter | 55 mm                         |
| Material | Hardened steel                |

## VARIOUS

|                                 |  |
|---------------------------------|--|
| Available version               | 2 doses + continuous                         |
| Stepless micrometric regulation | Yes  |
| Bean hopper capacity            | 300 g - 0.66 lb                              |
| Grind capacity                  | 1,8-2,5 g/s (espresso)<br>2,5-3,2 g/s (brew) |

## DIMENSIONS

|        |                   |
|--------|-------------------|
| Height | 348 mm · 13.71 in |
| Width  | 120 mm · 4.73 in  |
| Depth  | 191 mm · 7.52 in  |

## PLUS

|                           |                           |
